Website.

I have re-jigged the website to make it smaller and less cluttered. Our photo gallery now resides on the US site, and is accessible from our site www.skywagon.info

I just don't have the time to make our site any more complicated than it currently is. Please take advantage of the US forum which is also accessible through our site. If you post a question there, it will get answers. We are now paying the US club some fees to offset their website administration costs. Their newsletters will be available on their site www.skywagons.org plus a host of other tech info. It is a great knowledge base, so use it. I am in contact

Cessna 180/185 Club

with Dave Hayden, the US club President. We are both working together to get all the clubs working in the one direction.

Club positions.

I will be available for another term as president for this next year, assuming that people want that. If not, throw your hat into the ring. I will be available to give electricrery support to anyone who decides they might like to give it a go.

New members.

We have new people joining all the time. Welcome to Neville Partridge (C185) from Scone, Rod Winton, Mark Hosking et al.

Conclusion(if there is one)

Our baby, archie, is trucking along well. He now weighs 6 kg and is smiling at things(even me).

My apologies for the lateness and brevity of this news letter. Things are a bit mad here at the moment, as we have just taken over the Travel agency in Charleville.

All the best.

See you at the fly-in.

Cracker and Lesley.
