

2006 180/185 Eulalia Fly-in. April 8-9 2006.

Well, we had another successful event at Lloyd and Marj's property "Eulalia".

There were 19-20 180/185's plus a Tiger-Moth, 502 Airtractor and a C182.

Ross and Peggy's Lockheed was unable to land at the Strip due wind direction (southerly) and obstacle clearance (powerlines).

There were 6 new attendees:

- Toby Robinson NCC
- Steve Craig BVE
- Graham Henry JXD
- Rob Maslen SKA.
- Paul Smith KVV.
- Ron Jackson JPI

Most people arrived on Saturday afternoon.

The usual catching up with friends and checking out each others machines, took up the rest of the afternoon.

We managed to put a fairly loose jazz/dance band together for the evening, comprising some of the local players plus John Bishop Accordion), Max Balfour (Bass and Guitar) and myself (bass). Even if I say so myself, I reckon we did a fairly good job.

A meeting, of sorts, was held in the evening prior to dinner. This resulted in no change of office holder.

Some recital was carried out by Honest Ron, with a bit of help from the crowd.

Sunday saw people leaving shortly after breakfast. One member had a BFR conducted by another instructor/member.

A number of aircraft continued on a trip further down into NSW.

That's about it for the moment.

Regards,
Cracker.
